Welcome to this free resource, your How to do EFT Tapping Guide. My name is Jenny Clift. I am an EFT Tapping & Energy Coach and a professional violinist... and I'm excited to share this life-changing technique with you.

EFT (Emotional Freedom Techniques) is an incredibly useful tool for relieving stress and changing the mind-body-emotion negative response to difficult situations. It's something you have, literally at your fingertips, whenever you need!

By tapping on certain acupuncture points (see the chart on page 3) while talking about your negative emotions, feelings & memories, and your thoughts and limiting beliefs, you are sending a message to your body, brain and nervous system, that you are safe (the stress hormone cortisol decreases).

The amygdala, the part of the brain that governs emotions, emotional behaviour and motivation, and which triggers the 'fight, flight or freeze' response, is calmed, allowing you to, literally, think and respond more clearly and resourcefully.

EFT Tapping is simple and easy to use. Whether you're following along with a YouTube video, working with an EFT coach or going it alone, trust me, you've got this!

See the next page for basic instructions so you feel confident with the process:

1. Pick what you want to tap on. This could be:

- something that has just happened, which has triggered uncomfortable emotions in you (anger, sadness, frustration, fear, anxiety, embarrassment, etc.)
- a memory which has popped into your head
- another person
- a recurring thought pattern
- a physical feeling
- anything else bothering you

2. Rate any or all of the following on a scale of 1-10

(1 = no emotion, 10 = very intense emotion):

- The memory (you can give it a short title if you like eg 'The Audition')
- Emotions
- Physical feelings (where you feel the emotions in your body)
- Your thoughts and beliefs about this issue, yourself etc
- What you saw, heard, smelt, felt

3. Tap on the side of the hand (see photo on page 3) using the following formula (known as the Set-Up Phrase):

Even though _____, I love and accept myself completely.

It can be using any of the above aspects. For example:

Even though I have this memory 'The Audition'

or...Even though I feel so angry, etc

or...Even though I have this tension in my chest, etc.

or...Even though I'm not good enough,...

or Even though they were so mean....

Repeat the Set-Up Phrase three times.

4. Then tap round the points shown below, repeating a couple of words which help you to focus in on the issue (the Reminder Phrase).

E.g. This anger; This tension in my chest etc

5. After a few rounds, rate your level again 1-10.

6. Continue tapping on the remaining feelings, or on a different aspect or the words and ideas and emotions that came into your head as you tapped.

Try to get down to a 2 or below.
